Projects

Wanderer
Project:-Final Year Project.
Description:-It is our group project where we have used technologies based on web development.It is actually a travel management system where users can book trips consists of end to end booking from travels, hotels etc. For Continuous Fluctuation of hotel prices we have used python language for machine learning using datasets. In this, my part was to design web pages that is related to frontend of the website

Flipkart Clone
Project:-Personal Project
Technologies used:-MongoDB, ReactJs, ExpressJs, Redux,Nodejs,Bootstrap Framework
Description:-In this I have made an attempt to put similar functionalities in the website as if it there in Flipkart.
GitHub URL:"https://github.com/suraj1997-debug/ecommerce-clone.git"

Travel Agency Website
Project:- Personal Project
Technologies used:-MongoDB, ExpressJs,nodejs, bootstrap framework,EJS template engine (for Frontend)
Description :-In this, I have tried to implement the similar functionalities which are there in travel agency websites.This website is similar to my final year project but here I have used different technologies for development.
Github URL:-"https://github.com/suraj1997-debug/WeTravel.git"

Portfolio Website
Project:-Personal Project
Technologies used:-MongoDB, ReactJs, Redux, ExpressJs, Nodejs

Description:-It is actually my portfolio website.In this, I have added all my skill sets, my CV and projects which I have done so far and this website is completely functional and I have added mailing functionality as well and this website I have deployed via Heroku.
Site Link:-https://dev-suraj.herokuapp.com/

E-commerce Store
Project:-Personal Project
Technologies used:-MongoDB, ReactJs, Redux, ExpressJs, Nodejs
